

TOOL SERVICE CENTER

TOOL LIFE CYCLE MANAGEMENT

Control your tool costs and keep your tools running efficiently with individualized support services from Star SU. From design work to resharpening and recoating, Star SU has the equipment and resources to help you manage your tool room.

We use CNC grinding machines to restore tools to their original sharpened quality, condition and performance, and use advanced coatings from Oerlikon Balzers to improve tool performance after sharpening.

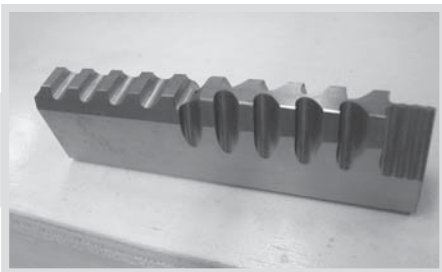

Choose your level of involvement: from supplying pure reconditioning services for existing single tools to complete service management with the purchase of the initial product.

Resharpening and Recoating Services Available For:

- Hobs
- Shaper Cutters
- Shaving Cutters
- Milling Cutters
- Master Gears
- Rack Cutters
- Saw Cutters
- Cylindrical and Flat Broaches

BROACH SHARPENING SERVICES
